

# **Soul Toxins**

## *Session 3*

1. If you had to write a definition for “image management” what would it be?
2. Why do people in ministry often feel the need to practice “image management”?
3. What are the dangers of “image management”?
4. Read Matthew 23:5-12. Where are you tempted to be a Pharisee?
5. How “safe” is your ministry environment? Is it OK for people to be real and raw about their struggles, or is it expected that ministry leaders have their “act” together? Get brutally honest.
